

## 2009-10 MOTORCYCLE / CONVERTIBLE PERMIT POLICY

**Owners of motorcycles and convertibles are not allowed to have more than one Stanford parking permit.**

- Instead, owners can obtain a free, transferrable permit mounting tag (acrylic or aluminum) from P&TS to display your permit.
- The tags are designed to be secured either to your vehicle's steering wheel or on your motorcycle handlebars with a cable and lock. You can purchase a \$10 cable and lock (combination or keyed) from P&TS or you can shop elsewhere. Cable locks sold by P&TS are intended to prevent permit loss, but are not vandal-proof. It is the responsibility of the user to take every precaution to prevent permit theft (including raising the top on a convertible).
- It is also your responsibility to ensure the permit is displayed prominently to avoid getting cited.
- If you are interested in seeing other cable or lock options, you can view the following URLs on the internet, consult with a trusted lock vendor or the Campus Bike Shop (Tresidder Union, First Level, 459 Lagunita Drive, Stanford, CA 94305, 650.723.9300 or <http://campusbikeshop.com>) and carefully consider what will meet your needs.
