

Subject: Transportation updates for East Campus residents
Date: June 16, 2017

Dear Stanford East Campus Resident,

Transportation options in the areas around Escondido Village are changing. We are providing you with updates to inform your choices for getting around or parking on campus.

Ride the Marguerite — Note bus stop closures as of June 26

Stanford's free Marguerite shuttle will continue to serve the residents of Escondido Village, Rains, and Mirrielees. However, five stops along Olmsted Road will be closing on June 26 due to a partial closure of Olmsted Road during construction.

Lines N, C, X, SE, and O will be affected. These routes will substitute Serra Street for Olmsted Road in the affected section, and the five stops currently on Olmsted Road will close. Unfortunately, these stops cannot be relocated to nearby Serra Street for a variety of reasons, including a lack of Americans with Disabilities Act (ADA) access and because it would require buses to impede bike lanes.

Please review our [map of Marguerite bus stop closures](#), which includes alternative stop locations.

Take a Zipcar— Find available cars

[Zipcar](#) is an on-demand car sharing service with numerous locations in and around Escondido Village. Registered members can rent nearby cars by the hour. Simply reserve a car online or by phone 24/7. Zipcars also have reserved parking spots at their pickup/dropoff location, so you won't have to search for a parking spot.

Check out our [map of Zipcar locations near Escondido Village](#).

Cycle — Check out the bike sale on June 21

Riding a bicycle can be a great way to get around, especially on the Stanford campus. Stanford's Department of Public Safety will be holding a bike sale on June 21 in the Police Station lobby. Bikes will be sold for \$33.50. These bikes are part of Public Safety's abatement program and are now offered for sale. For more information, visit the [Bike Sale event page](#).

Walk — Use our walking times map to identify your best options

Our [Walking Times Map](#) can help you gauge the distance between different places on campus, including how long it takes to walk from parking to and from your residence. Our map may help you identify your best parking options based on walking times and distances!

Park — View parking options based on utilization surveys

We sent out an email to [‘ES’-permit holders](#) and another to [‘C’-permit holders](#) this week with parking options based on recent utilization surveys. Plan your parking more effectively by reviewing our table and maps of parking areas that were found to have more spaces available.

More tips you can use: *The Stanford Department of Public Safety has created a [list of personal safety tips](#) that may be useful to Stanford residents.*

We hope that this information will help you evaluate your transportation options, especially during construction of the Escondido Village Graduate Residences.

Thank you for your patience. Please let us know if you have questions. We can be reached at parkingoperations@stanford.edu.

Sincerely,

Stanford Parking & Transportation Services
