# ON THE MOVE

*Stanford Redwood City Transportation*

## SRWC Commute Programs

Welcome to the inaugural issue of *On The Move*, a Parking & Transportation Services newsletter to provide transportation information and resources to SRWC commuters.

We were pleased to talk with many of you at the SRWC Resource Fair last week. In case you missed it or didn't hear about all of our promotions and programs, please check out a few we are highlighting in this newsletter.

We also want to invite your feedback on whether we should schedule one or more days to help you try your new SRWC commute—as a group or on your own. Let us know if you are interested through our form.

Submit Tips for  
Commute Resilience

Explore Your Commute  
Options

### Did You Know?

There are several options and things to consider if you must travel between campuses:

1. You could use **Zipcar**, an on-demand car-sharing service, with free departmental accounts. Try a **30-day free personal**

Have you learned tips and tricks to make your commute more resilient or to be more resilient in the face of change generally? **Submit a tip or story** to be entered to win one of two \$1,000 grand prizes.

**Complete one or more of these steps** in anticipation of your SRWC commute, and you will receive a small gift and entry into our prize drawing.

**membership** if you sign up before Nov. 30!

2. Use a personal vehicle with one of these options:
  - Department parking permit
  - SRWC commuter permit ('C' parking)
  - Hourly visitor parking.
  
3. Find out why these options are better than a fixed shuttle between campuses: **Why Isn't There An Intercampus Shuttle?**

## Want To “Try your Commute” to SRWC

We are considering whether to offer one or more “**Try Your Commute Day**” events for SRWC. Let us know if you would be interested in participating.
